About SDCET, Muzaffarnagar

SDCET, Muzaffarnagar was established in 1997 by the Sanatan Dharam College Association**,** a registered pioneer educational society. SDCET is offering MBA, M. Tech course in Electronics & Communication and B. Tech degree courses in Civil Engg., Electrical Engg., Computer Science & Engg., Electronics & Comm. Engg., Mechanical Engg., and Information Technology, apart from Diploma courses in Civil Engg., Electrical Engg, Mechanical Production and Computer Science. Twenty batches have already passed out from the college. SDCET is affiliated to Dr. APJ Abdul Kalam Technical University, Lucknow. There are about 1500 students in different courses run by SDCET while about 25000 students are studying in other institutions run by the society.

SDCET is situated within the urban limits of Muzaffarnagar city and just two km from the heart of city, the Shiv Chowk. It is about 120 Km. from Delhi on Delhi-Dehradun National Highway (NH-58) and is well connected by rail and road with important cities of the country. The nearest Airport is Indira Gandhi International Airport at Delhi.

About the Conference

Sustainable development is an approach for meeting the present needs of society without disturbing the nurturing ability of nature. The modern science, technology and management are focusing on production and consumptions. Consequently, the world has become a market place. The technological innovations are centered on as to how resources can be used to produce a variety of products for the market. The development thereby, means materialistic soundness and more facilities for living and doing business. This approach worldwide has adversely affected the sustainability of nature and universe. The concept of sustainable development has shifted its focus from environmental concerns to economic development, social development and environmental problem for future generation. Under goals of sustainable development, UN wanted to address global challenges i.e. poverty, inequality, climate change, environmental development, peace and justice. Obviously, increased human greed to encroach upon wilderness areas and irrational resource extraction have posed a big threat to nature in the whole universe. Hence, a need is felt to make shift in technological innovations and management practices towards safeguard of society, economy and environment. However, it is high time to conduct a conference at National level, so that management and technological issues can be discussed, analyzed and remedial measures could be suggested for sustainable development.

Sub-Themes of Conference

· ICT
· Artificial Intelligence
· Digitization and society
· Green Buildings
· E-Waste
· E-Vidya
· Population and Food
· Renewable Energy
· Globalization of Business
· Ethics & Social Responsibility
· Effective Environmental Governance Regimes

Objective of the Conference

The conference is aimed to provide a multi disciplinary forum where in papers on various themes & sub-themes related to management and technology for sustainable development would be presented and discussed to evolve some practically possible remedies.

Invitation for Papers

The conference participants would include Scientists, Technocrats, Academics, Industrialists and Managers/ Management Experts. In this multi-disciplinary forum, papers on various themes and sub-themes would be discussed to evolve some practically possible solutions. Papers are, therefore, invited from the experts in the various disciplines. The acceptance of papers would be based on a reviewed process. Proceedings of the selected papers received along with registration fee up-to date **10th April 2022** shall be published.

Submission of Papers
